ELECTRIC LAMINATING MACHINE

- + Free Shipping
- ◆Self developed control system.
- ◆The laminating machine has anti pinch control function in the process of laminating.
- ◆Intelligent meter recording and accurate measurement.
- ◆Automatic stop function after covering the picture.

Max width	1630mm
Max lif heigh	40mm
Max speed	45m/min
Roller diameter	150mm
Master-control Interface	Industrial Handle
Pedal switch mode	Curve Start-stop
Max film diameter	180mm
Max media diameter	300mm
Max take-up dismater	250mm
Infinte variable speed	Yes
Auto-stop at media finished	Yes
Curve Starr-stop	Yes
Auto-cutting	Yes
Anti-pinch device	Yes
Temperature control range	0-60℃ (Optional high temperature)
Heating way	Infrared heating
Preheating time	0-20min
Lifting way	Electrical
Motor type	Brushless DC servo motor
Servo motor power	750W
Heating input power	2000W
Rated input voltage	110/220v
Net/Gross Weight	318Kg/372Kg
Equipment size	2088*560*1443mm
Package size	2150*680*1570mm
